What You Need to Know About Your Benefits and Options

What is Medicare?

Medicare is a federal health insurance program for:

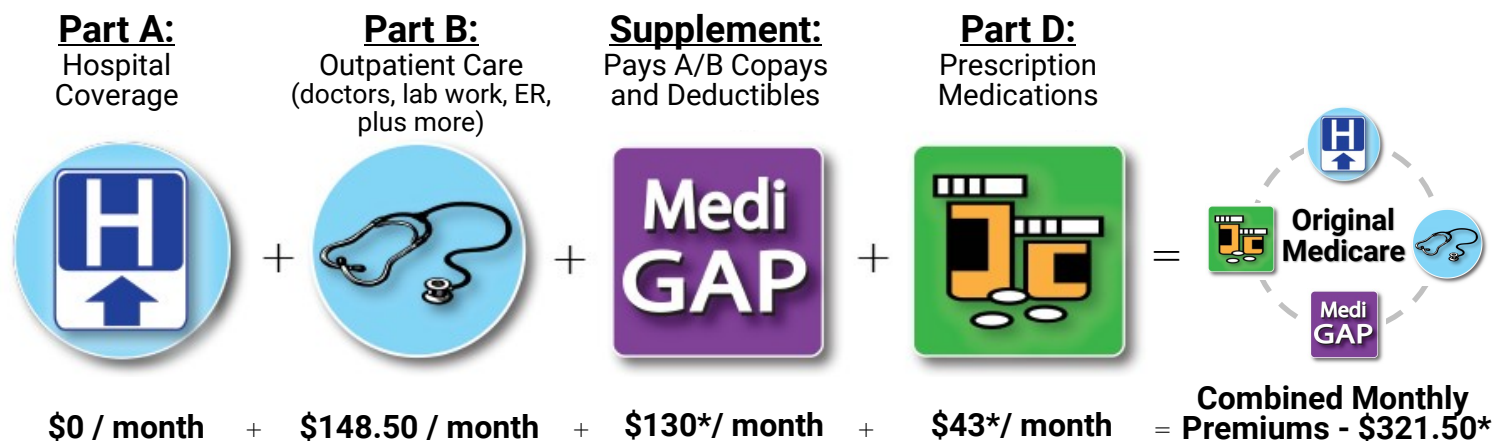

- People age 65 or older
- People under age 65 with certain disabilities
- Individuals with End-Stage Renal Disease (permanent kidney failure)

Medicare has five components, each covering different services. People enrolling in Medicare will choose the components that work best for their situation. Typically, individuals choose one of the two combinations of options listed below. **Everyone's situation is different and some people can get insurance through other sources like their employer. This brochure is meant to be a general guide; prices and costs are based on an average.** For information specific to you, contact Nebraska SHIP.

Pick either Original Medicare OR a Medicare Advantage plan.

You should not have both a Supplement and a Medicare Advantage plan at the same time!

Each plan covers a different list of Medicare-covered services.

Premium Cost: Premiums vary based on age, where you live, tobacco use, gender and the policy/company you choose. **For example, a Plan G Policy at age 65 ranges from \$90 - \$282 monthly**, depending on the above factors.
